SCHOOL OF BUSINESS ADMINISTRATION
Report on Remedial Classes for BBA Students
(Session 2024–2025)

During the academic session **2024–2025**, the **School of Business Administration**, NSCBM Government College Hamirpur, successfully conducted **remedial classes** for **BBA students** across different subjects. These classes were specially organized for **slow learner students** and those who **scored below passing marks in the minor tests**, as well as for other students who wished to strengthen their understanding of core topics.

The main objective of the remedial program was to provide additional academic support, clarify subject-related doubts, and improve the overall performance of students who were facing difficulties in keeping up with the regular classroom teaching. The classes covered key subjects from the BBA curriculum, including Accounting, Business Communication, fundamentals of Management, and Economics etc.

Experienced faculty members of the department conducted the sessions in small groups to ensure individual attention and better interaction. Regular attendance and participation from students reflected the success and usefulness of the initiative.

The feedback received from the students was highly positive. They appreciated the supportive environment and personalized guidance, which helped boost their confidence and academic performance.

The School of Business Administration remains committed to providing continuous academic support and will continue such initiatives in the future to promote inclusive and effective learning.
