

TREE PLANTATION

NSCBM GC HAMIRPUR

TREE
PLANTATION
DRIVE

In 2024, NCC cadets organized large-scale Tree Plantation Drives as part of their commitment to a cleaner and greener environment. Cadets planted saplings in schools, colleges, villages, and public places to promote ecological balance and fight against climate change. Along with plantation, awareness campaigns were conducted to highlight the importance of trees for clean air, soil conservation, and a healthy future. Cadets motivated local communities to take responsibility for nurturing the planted saplings. Through these efforts, NCC cadets contributed towards the national mission of a Green India, ensuring environmental protection and sustainable development.
